

Minnesota Charities' Best Bet for Electronic Pull-tabs and Linked Bingo!

GOLDEN TOUCH™

Play electronic pull-tabs and linked bingo on one system – one set of handsets, one POS, one internet connection and **only one product to train for!** This truly IS the best bet for Minnesota charities!

Golden Touch Electronic Pull-tabs

International Gamco's Golden Touch offers Minnesota's most popular player preferred e-tab games. Gamco offers a variety of e-tab play styles and over 20 years of reliable performance in e-tab markets world-wide.

Booty Chaser Linked Bingo

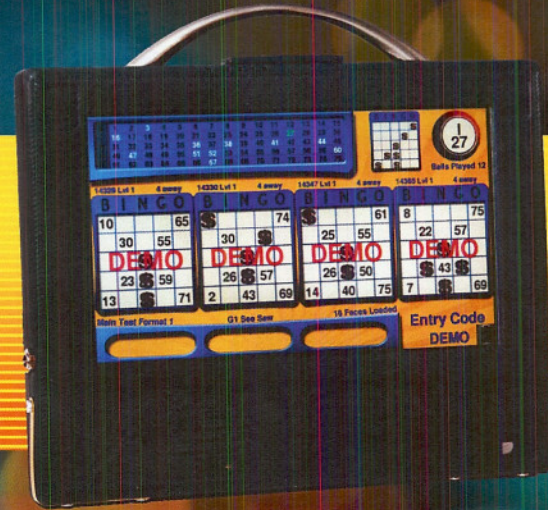

Booty Chaser, EGS's linked bingo game, guarantees the best of both worlds – guaranteed consolation prizes **and** large jackpots. For about the cost of a beer, players can chase jackpots up to \$100,000! Booty Chaser will drive player spend and traffic!

Here's what Golden Touch and Booty Chaser can do for you!

There's no out of pocket cost to start the program. All you need is standard, broadband internet access and we provide the rest from installation to training, service and promotion!

Our system is reliable – no need to worry about internet service disruption! E-Tab deals are stored on site on the point of sale server. Worrying about stock levels and state reporting is a thing of the past! Our in-state game servers will communicate with your POS to monitor inventory assuring you can always play – even after hours and on weekends. You can access all e-tab and linked bingo sales data, load and pull games from play as well as access state reporting information all through the point of sale system.

The player handset is a durable, commercial grade device! Our handset has been custom manufactured in the USA to sustain frequent handling and player wear and tear. Repairs can be made in the field unlike other "off the shelf" foreign made options!
