

Fiscal Year 2011 Lawful Gambling Taxes

New Net Receipts Tax Compared to Prior Tax Structure

(Tax structure in HF 2958 as enacted, but without expanded gambling)

The attached pages recalculate FY 2011 lawful gambling taxes under the following proposal:

- For pull-tabs and tipboards, repeal the distributor tax and the combined receipts tax and replace them with a new net receipts tax.
- For bingo, paddlewheels, and raffles, make no change in current law.

Current law tax rates were:

Net Receipts Tax on Bingo, Raffles, and Paddlewheels	8.5%
Distributor Tax on Pull-tabs and Tipboards	1.7%
Combined (<i>gross</i>) Receipts Tax on Pull-tabs & Tipboards (organization basis)	
Not over \$500,000	0.0%
Over \$500,000, but not over \$700,000	1.7%
Over \$700,000, but not over \$900,000	3.4%
Over \$900,000	5.1%

Proposed tax rates would have been:

Net Receipts Tax on Bingo, Raffles, and Paddlewheels	8.5%
New <i>Net</i> Receipts Tax on Pull-tabs & Tipboards (organization basis)	
Not over \$87,500	9.0%
Over \$87,500, but not over \$122,500	18.0%
Over \$122,500, but not over \$157,500	27.0%
Over \$157,500	36.0%

Summary of Results: Change in FY 2011 tax *if proposed tax structure had been in effect in FY 2011*

With the proposed rates, total FY 2011 tax revenue would have fallen by \$3 million, down 8.2 percent from the \$37 million collected under current law. *Results assume no behavioral changes.*

Slightly more than half of all organizations would have paid less tax. Organizations are sorted from the organization with the largest reduction in tax to the organization with the largest increase in tax.

Organizations that would have paid more tax are generally those with below-average pull-tab prize payout rates (below 82.5%). Those with lower payout rates have a higher ratio of net receipts to gross receipts. Changing from a gross receipts tax to a net receipts tax can move those organizations into a higher bracket. The last three columns in the table show (1) the pull-tab payout rate for each organization and (2) which of the four brackets they were in under current law (combined receipts tax) and the proposal (net receipts tax). Many of those with unusually low payout ratios move to a higher bracket. In contrast, some with very high payout rates (85% or more) move to a lower bracket.

Notes:

- (1) Some organizations with an unusually high ratio of distributor tax refunds also show a tax increase, but this may be due to an unusual pattern of refunds from the previous year.
- (2) A small number of organizations were excluded from the list because they:
 - had no gambling activity (inactive organizations);
 - had negative tax for the year (refunds exceeded tax); or
 - had no pull-tabs or tipboards.

The last group includes those with only bingo, raffles, and paddlewheels, who would be unaffected by the proposed changes.
