

Will your staff be able to tell the difference between a fake twenty and a real twenty dollar bill?

With a BILL BUSTER they can!

The **BILL BUSTER** produces a powerful UV light which detects the colored UV strip in all new money. Under the **BILL BUSTER** \$100's glow a very faint pink, \$50's yellow, \$20's green, \$10's orange and \$5's are blue. If it doesn't glow at all look very closely at it because you may have counterfeit money. These are the same exact machines the banks use.

Green UV stripe

Blue UV stripe

Summer Special Rate!!! \$75 per unit (normally they sell for \$99)

Buy 2 or more at the same time and get them for \$70 per unit!!!
